SMUGGLED DISPATCH

News From Cuba That Escaped the Censorship.

DETAIL OF RECENT ENGAGEMENTS.

Spanish Troops Defeated by the Insurgents and Compelled to Leave Hundreds of Their Dead on the Fields—Dr. Ruiz Was an American—Julio Sangulley Released—Other Cuban War News.

KEY WEST, Fla., Feb. 27.—The advices from Santa Clara are that in the battle at Ceniza the loss of the Spanish under General Weyler amounted to 500 killed and wounded. In the battle at Calabazas and Cabaiguan the Spanish losses are reported to have been equally as large, but the Spanish dead and wounded were sent to Sancti Spiritus and definite figures can not be obtained. In these two battles General Gomez commanded in person.

The fighting has been continuous on Weyler's march through Santa Clara, and the Cuban patriots have scored numerous victories. The battles of Ceniza resulted in a complete rout for the Spanish commanded by General Legura. It was met by the patriots under General Carrillo and Colonel Morabal and his two battalions were held in check and then forced back, the Cubans charging with their machetes. One field piece mounted on an eminence did terrible execution.

General Legura reformed his forces and with two new battalions again charged the Cuban forces and was again repulsed with heavy losses. In this battle Captain John Linn, a young American from Jacksonville, Fla., who landed in Cuba with the second expedition carried by the Three Friends, commanded a dynamite gun in General Carrillo's command, and with this terrible weapon literally mowed down the Spanish.

The Spanish government officials lay the blame of the Spanish defeat to the work of this gun, which Captain Linn had placed in position to command a defile through which the Spaniards had to pass. In this battle 47 Spaniards are known to have been killed and more than 100 wounded have been brought into Havana.

One of the most disastrous engagements of the present campaign for the Spanish was the battle of Valdez Hill, near Vaguijay, in which the Spanish force under Colonel Coses was slaughtered by the hundreds with machetes in the hands of the infuriated Cubans. No quarter was given. The Spanish cavalry was cut down, horses and men being piled together and hacked to pieces.

The Cubans were lying in ambush under command of Brigadier General Toreres and Gonzales, and the Spanish column commanded by Colonel Coses fell into the trap without warning. The Spanish loss in this battle was over 400, although reported by Weyler to be a dozen killed and 68 wounded. The Cubans had 50 men killed and as many more wounded.

SANGULLEY RELEASED.

He Will Start at Once on a Visit to the United States.

HAVANA, Feb. 27.—Julio Sangulley, having been set at liberty, spent the evening at his home with a large number of friends. Sangulley leaves this evening on the Mascotte for Key West.

The Associated Press correspondent called last night on Sangulley. His handsome residence is a villa in the outskirts of Havana, in the quarter called the Cerro, the aristocratic resort of the city. Sangulley expressed his gratitude to the queen for the grace of pardon, which greatly surprised him. He said that he never thought he would be pardoned.

Sangulley said the first news of the pardon reached him through a cable received from Secretary of State Olney, saying: "Advise Sangulley's defender to withdraw appeal and facilitate pardon."

Sangulley believes the pardon was due to a desire on the part of her majesty to demonstrate her good will toward President Cleveland and Secretary of State Olney for services rendered. On this account the preliminaries to the pardon were probably hastened so that the announcement might be made during the terms of office of Cleveland and Olney.

Sangulley is well preserved in spite of his two years of imprisonment. He seemed very grateful to all of the officers of the Cabanas fortress, complimenting even the minor officials, and mentioning especially the chiefs of staff of the fort for many courtesies shown to him. He had no complaint to make except in the matter of the imprisonment itself.

Sangulley will be accompanied to the United States by his wife, son and adopted daughter. He will go to Tampa, where he will remain for a few days on account of delicate health of his wife. He will not settle permanently in New York, as his wife is obliged to live in a hot climate. Sangulley hopes that when the island of Cuba is pacified he will be allowed to return.

RUIZ WAS AN AMERICAN.

His Naturalization Papers Have Been Found on Record at Philadelphia.

PHILADELPHIA, Feb. 27.—All doubt as to the naturalization of Dr. Ricardo Ruiz, who was murdered in his cell at Guanabacoa, Cuba, by the Spanish, has

been set at rest by the finding of his papers on file here in the prothonotary's office. Ruiz declared his intention of becoming an American citizen Dec. 19, 1877, and Jan. 21, 1880, he finally renounced his allegiance to the King of Spain.

At the time his age was given as 25 years, and he lived at 701 Wood street, this city. Ruiz took out his papers under his Spanish name Ruiz y Ugarrro. He dropped the family appellation when he came here. The indexing clerks in the prothonotary's office improperly indexed his name, and that caused the delay in finding the papers.

CENSORSHIP NEWS.

Spanish Account of Recent Happenings in Cuba.

HAVANA, Feb. 27.—The Spanish gunboat Contramaestre has landed forces at Gallina and Santa Teresa. They were received with a hot fire, but succeeded in repulsing the insurgents, assisted by the gunboat, without any loss to the marines. Two sailors, however, were slightly wounded.

At Media Luna, near Manzanillo, the Spanish gunboat Cuba Espanola fired on and dispersed a band of insurgents. The latter later attacked Canito, but were repulsed with a heavy loss.

A dispatch from Matanzas announces that Herminio Caraban, a prisoner of war, has been executed at that place.

The price of milk has gone up 50 per cent.

Another Complaint.

WASHINGTON, Feb. 27.—Mr. Henry W. McFonnell, a planter of Point Clair, Ala., who owns a large plantation in Cuba, 15 miles from Havana, is in the city, direct from Cuba, where, he says, he was subjected to a series of degradations. He will file a written statement of the outrages to which he was subjected, and will ask Representative Stallings, his representative in congress, to assist him in having the matter investigated.

CRETAN WAR NOT OVER.

Greece Determined to Maintain Her Army in Crete.

ATHENS, Feb. 27.—The collective note is still undelivered. Only the Austrian, German and Russian ministers have received instructions. It is rumored that one power has withdrawn from the concert.

The long visit of the British minister to the king yesterday revives the rumor that England favors the Greek claims in Crete.

Two more classes of reserves were called out last night.

Prime Minister Delyannis, in an interview, said that the decision of the government to maintain the army in Crete was irrevocable.

Armistice Violated.

CANDIA, Feb. 27.—The Turks made a sortie for the purpose of occupying strategic points around Candia. They attacked and inflicted a severe loss upon the Christians.

The commanders of the vessels anchored in the harbor protested to the governor against what they claimed was a violation of the armistice.

Greece Urged to Declare War.

LONDON, Feb. 27.—The Chronicle publishes an editorial styling the Sultan "arch-cutthroat sitting enthroned with British bayonets at his call." The Chronicle also urges Greece to declare war and so "end the infamy."

DESTITUTION IN LOUISIANA.

Four Thousand in One Parish Alone Are in Want of Food.

ST. LOUIS, Feb. 27.—Mr. J. T. Caldwell of Claiborne parish, La., is in this city trying to secure aid for the drouth-stricken people in his parish.

"In Claiborne parish, which is my home," he said, "there are about 12,000 inhabitants. They are nearly all farmers, there being no cities in the parish. Of these 12,000, a conservative estimate would place the number of destitute persons at about 4,000. They are both black and white and have come to this condition through no fault of their own."

"The poorer classes have now absolutely nothing to live on. The state of Louisiana gave \$65,000 for the assistance of the district, but this was mostly expended in freight charges. The farmers were to pay 25 cents a bushel for the corn. One would think that almost any one could raise \$12 to get 50 bushels of corn, but there were hundreds who could not. In this way the poor got none of the state's donation."

OILMILL FIRE.

Plant of National Lined Oil Company at Piqua, O., Destroyed.

PIQUA, O., Feb. 27.—Early yesterday morning fire destroyed the W. P. Orr mill No. 2, belonging to the National Lined Oil company. It is thought that spontaneous combustion caused the fire. The mill had not been in operation for several years and was used as a storehouse for barley by the Piqua Malt company. Fifty thousand bushels of barley were destroyed.

During the fire a wall fell, crushing a dwelling house owned by the street railway company.

Just before the Orr mill fire an alarm called the department to the Leonard Daniels oilmill, but only slight damage was done there.

Losses: Mill and machinery of the National plant, \$46,000; insurance, \$19,500; loss on barley, \$22,500; insured.

The common house fly lays four times in each summer, each time about 80 eggs.

OHIO RIVER FALLING.

The Great Flood Is a Thing of the Past.

REAL DISTRESS IS PREVAILING.

Extreme Cold Weather Is Adding to the Miseries of Those That Have Been Driven From Their Homes—Relief Measures Being Actively Pushed—Situation All Along the Overflowed River.

CINCINNATI, Feb. 27.—The Ohio river at this point, after having reached 61 feet and 2 inches, remained stationary for 18 hours and then began falling slowly, less than half an inch an hour. This is an unusual subsidence. The weather has turned quite cold, the mercury falling from 36 to 17 degrees. Some fear is felt for the houses on the river front, against which steamers and every description of minor craft are bumping with each fluctuation of the waves.

At present the condition of people driven from homes by the flood is pitiable. With the mercury at 17 and steadily falling their suffering increases. Outside of the regular charity organization and the police force there has been no provision for the assistance of these sufferers except such as is rendered by their immediate neighbors.

Beginning up the river the village of California is flooded. Its houses look like so many islands rising out of a sea. From Fort Thomas a grand view of this flood can be had, and it looks appalling in extent, with farms flooded and farmhouses peering above the water.

Coming down to the east corporation line of Cincinnati, the first submergence is at Columbia. From this point the submerged lowlands of the Little Miami river have the appearance of being the main river. Its width exceeds that of the Ohio and it stretches northward as far as the eye can see. Very few farmhouses are in the Miami bottoms, as they are subject to frequent overflows. In Columbia many families are driven to upper stories, and many are driven clear out of their homes.

At Pendleton, next below Columbia, the situation is still worse, owing to the greater extent of the submerged district. In both these suburban wards the flood invaded many factories and stopped work.

Over in Newport the distress is great and many people are suffering. Not only the upper part of Newport, but that portion lying between the Ohio and Licking rivers, is seriously affected. Water from a few inches to six feet deep covers this region to within two squares of the courthouse. Grounds occupied by the old Newport barracks are deep under water.

In Covington, along the immediate river front, houses are submerged, while further up town cellars are filled with water. Most of these houses are business, ware or store houses and factories. This condition exists along the whole river front of Covington, while at West Covington a number of families are driven from their dwellings.

Ludlow, Ky., and Bromley are in much worse condition than they were 24 hours ago. Water covers the great dam at the Ludlow lagoon, and the surface of the lake and that of the river are united. How a break in this dam can be prevented when the waters subside is puzzling those who have a large amount of capital invested in that resort.

At the western extremity of the city, beginning with North Bend and coming up through Coal City, Addyston, Fern Bank, Riverside, Delhi, Sedamsville and Storrs township at the mouth of Millcreek, there is an unbroken scene of desolation and distress, homes vacated, people fed from boats in upper stories of houses, shops and factories silenced, river boats carrying provisions and moving goods and families, wagons with horses midside deep in water rescuing the distressed.

All along the river front of Cincinnati, from Millcreek to the Little Miami railroad depot, the water extends in most places to Second street, and in some places nearly to Pearl street, while it floods nearly all Pearl street cellars. This district includes nearly all the commission houses, all the coal elevators except one, and many factories. But the greatest loss damage and inconvenience in Cincinnati were in Mill Creek valley, from the Ohio river to Cumminsville, a distance of six miles. Several railroads run through this valley and they are lined with great factories. In the upper part of the valley are numerous gardens, whose total destruction has already been noted. Near the many shops and factories are humble dwellings in which operatives live, very many of whom have been driven from their homes.

All the railroads in this valley are on grades above water. Nevertheless a Big Four switch engine yesterday went clear down out of sight on a side track by the washing away of the fill beneath the tracks. The engineer and fireman saved themselves by jumping and swimming out to the fill in the rear.

Electric car communication is cut off, but transfers are made through the water by horse cars. At the Suspension

bridge in Cincinnati transfers have to be made by horse cars in the same way.

In Cincinnati, Covington, Newport and all the other towns on 14 miles of Cincinnati river front, all available boats, launches, skiffs and yawls are in use every hour, day and night, in administering relief.

The humane society has given refuge to hundreds of dogs, which it will hold to be claimed by owners after the flood.

All points above here report the river falling fast. Immediately below Cincinnati it is either stationary or receding slowly.

Logs Brought Out.

VALLEY VIEW, Ky., Feb. 27.—Fully 200,000 logs were brought out of the eastern Kentucky mountains by the recent high tide in the Kentucky river.

REVIEW OF TRADE.

R. G. Dun & Company's Weekly Report on the Condition of Business.

NEW YORK, Feb. 27.—R. G. Dun & Company's weekly review of trade says: Genuine improvement in business does not come with a rush, like the breaking of a great dam. The growth for some weeks past has been more encouraging, because in nearly all lines it has been gradual and moderate. The rupture in the steel rail and other combinations in the iron business, has brought out a vast quantity of trade, which had been held back and has set many thousand men at work, while the slow but steady gain in other great industries has given employment to many thousand more, but the full effects will not appear until the increased purchases by all these swell the distribution of goods. Meanwhile it is substantial ground for confidence that months which were regarded by many in the money market with serious apprehensions have passed without disturbance and with steady gain in the position of the country and the treasury.

The breaking of bonds which have restricted many branches of the iron industry has been followed by an enormous increase in demand and in orders booked, and by the starting of many works. Nothing is yet settled about the price of lake ore for the coming season, but some expect for Mesaba the price of 1895, while others expect a lower price. The rapid increase in coke output in the Connellsville region, which is now over 100,000 tons, gives prospect of moderate cost for fuel, and the addition of important furnaces to the producing capacity prevents a large rise in Bessemer pig, which has, nevertheless, advanced 10 cents at Pittsburgh with increasing demand. Purchases of rails, estimated at 1,000,000 tons within two weeks, whereas the production last year was 1,102,892 tons, and the sales said to be only 800,000, ensure employment for the works far ahead, and eastern works are taking desirable contracts at \$18 per ton.

Bars are unchanged, but orders for 900 cars by one railway, with numerous others, increase the demand, and plates are required for two great elevators at Chicago. Important contracts for export continue, and American makers undersell foreign in tin plates by 70 cents, and are selling cotton ties below 75 cents, for which \$1.10 was charged by importers a year ago.

With less rapidity but yet steadily, other industries gaining. Although brown 4-yard sheetings are an eighth lower, and print cloths a sixteenth lower, it is found that several cotton mills have started, not covered by the restriction as to print cloth works, which is carried out. Increasing demand has also started quite a number of woolen mills, including many making dress goods and hosiery.

The demand for men's wools is also somewhat better, especially for heavy-weights, and there are improving sales of better qualities. Sales of wool have been 38,317,200 pounds in four weeks, against 22,366,800 in the largest previous year, 1892, and the great establishments are believed to have supplied their possible wants for some months ahead, a single purchase of 1,800,000 pounds South American cross-bred being the most important noted this week.

Wheat enjoyed a brief rise, then dropped over 3 cents, and closed 2 5/8 cents lower for the week. While western receipts are 40 per cent smaller than last year, for the past four weeks Atlantic exports, flour included, in the same weeks have been 6,340,415 bushels, against 7,043,577 last year, and the exports of corn have been 8,435,552 bushels, against 4,195,252 last year. The increase in corn more than makes up in foreign consumption for the decrease in wheat.

Cotton rose three-sixteenths, though without material change in movement. Better reports of manufacturing in England and the starting of some mills here give hope of better demand.

Failures for the past week have been 296 in the United States against 278 last year, and 50 in Canada, against 58 last year.

MADRID, Feb. 27.—The government received news that a sudden uprising occurred in Manila, the capital of the Philippine Islands, Thursday. The insurgents made an attack upon the quarters of the Spanish carabinieri, and carried them by storm. Fighting then began in the streets, and was prolonged for several hours. The Spanish troops were finally victorious, and by nightfall all disorder had been suppressed. The corpses of 200 rebels were lying in the streets.

CARLISLE, Ky., Feb. 27.—The first raid in this county on the tollgates was made last night. A mob of eight men removed the pole on the Carlisle and Jackstown pike, and warned the keeper to collect no more tolls. The keeper did not know the men, who were not masked.

BASE BALL SCHEDULE

When and Where the Games Will Be Played.

DATES FOR FUTURE REFERENCE.

Something to Cut Out and Paste Up and Consult During the Coming Season When You Want to Know Where the Various Games Are Being Played—Other Doings of the Base Ball Magnates.

BALTIMORE, Feb. 27.—The second day's session of the annual spring meeting of the National League and American Association of base ball clubs met yesterday at the hotel Rennett. The Rusie case was thoroughly ventilated, the board taking New York's end of the case. The national board of control was increased from four to six. The date of the annual meeting of the board was changed to the first Friday after the second Tuesday in November. The following schedule of games was adopted:

NOTICE.

The members of the Mason County Democratic Executive Committee are requested to meet Monday, March 8th, 1896, at 11 o'clock a. m., at the Central Hotel in Maysville, Ky. A full attendance of said committee is desired as business of importance will be brought before the committee for its action.

JOHN W. ALEXANDER, Chairman.

J. C. LOVEL, Secretary.

Both the big political parties in Kentucky are badly split up into factions, but there is this difference, the Democrats are fighting over principles while the Republicans are fighting over the "pie" and patronage.

The annual report of the Civil Service Commissioners don't furnish much comfort for the office-seekers. It shows that there are now 87,107 Federal places in the classified service, and that of the 91,160 not yet classified, 65,725 are fourth-class postmasterships, which the commission thinks should also be embraced in the classification.

The "scenic effects" were very poor, the actors would have discredited the most ordinary aggregation of "barn stormers,"—and the BULLETIN's slur at the audience is a wanton insult to the intelligence of every person who had an idea above a nickel.—Public Ledger.

Really, it's too, too bad we don't all view everything in just the same light the editor of the Ledger does.

The receiver of the Columbian Fire Insurance Company of Louisville was allowed \$8,000 by the court for two year's services. Attorney George Weisinger Smith was allowed to withdraw \$1,500 for representing one class of creditors under appointment of the court, and Attorneys O'Neal & Pryor and Alfred Seligman were allowed \$3,000 and \$250 additional for expenses. The court hasn't decided yet what to pay the creditors.

SENATOR BLACKBURN says that he hears on good authority that Dr. Hunter is to be given a good executive place under McKinley and that Bradley will be allowed to control the patronage of the State. But before the Senator orates too much he had better consult the able editor of the BULLETIN, who knows all about what the President-elect and Governor Bradley are going to do. Fact is, what Br'er Marsh doesn't know about what he don't know just nint worth finding out.—Public Ledger.

Say, Br'er Davis, we do know something. We know you are doing your level best to land into some Federal office by clinging to Governor Bradley's coat tails.

SAYERS, who heads the Democrats on the Appropriation Committee of the House, is preparing a statement which he will soon make public giving in detail the extravagant appropriations made by this Congress. In round numbers the Fifty-fourth Congress has appropriated \$1,045,000,000, or \$50,000,000 more than was appropriated by the Fifty-third Congress. When asked why the Democrats had not vigorously protested against this wanton and reckless expenditure of the public money, Mr. Sayers said the minority were not strong enough to make their opposition felt and the Republican leaders were too feeble to resist the majority of their party. "In other words," says the Courier-Journal's correspondent, "the protectionists led by Reed and Dingley were willing to take the bridges off in order to have a lame excuse for increasing the burdens on the people in the shape of additional taxation on the necessities of life."

HUNTER WILL RUN.

The Willy Doctor Says He Has the Caucus Nomination Won, And Bradley May Whistle.

[Enquirer Correspondence.]

Congressman Hunter, of Kentucky, who was the caucus nominee of the Republicans of the Kentucky Legislature last winter for United States Senator, is out in a strong denial that he is to withdraw from the Senatorial race in exchange for some fat office to be given him by President McKinley. Mr. Hunter said Thursday:

"The whole thing is a fabrication for a purpose. My position is as well known at Canton as it is in Republican circles in Kentucky. I am a candidate for Senator and for nothing else. And more than that, I have assurances of support from enough members of the Legislature to make me the caucus nominee of my party for that office. In such circumstances, why should I retire from the race? How could I do so in justice to myself or to my friends? Thirty-six votes will be necessary in a full caucus to nominate, and I can count absolutely on forty-three. We are entitled in Kentucky to the regular party procedure. A caucus in such contests is the rule, and the majority vote binds."

"If the Legislature is called together in extra session, then, you will be a candidate before it to succeed Mr. Blackburn in the Senate?"

"I will. You can not state that too emphatic. I have every reason to feel that I am the choice of a very large majority of my party at home for the Senatorship, and I shall hold myself subject to their commands. I shall go to Frankfort and make the fight, and endeavor by every fair means in my power to achieve success. The party is entitled to a Senator. The Legislature is Republican on joint ballot. The vote in the Senate here is exceedingly close, and every consideration demands that an election take place. I wish to say that I am not fighting any one in this matter. I am not an obstructionist. I have a right to be a candidate for the Senate, and, with a majority of the Republican members of the Legislature in favor of my election, it is my duty, as it is my pleasure, to make the race. I wish to say also that if the Legislature is called together in extra session I shall not only be the caucus nominee of my party, but I believe I shall be chosen Senator."

Dr. Hunter was asked concerning the nature of the personal differences existing between himself and Gov. Bradley, but he excused himself from discussing them. He was willing, he said, to stand on his record at home. His services to his party were known, and he considered that as the nominee of the party for Senator last winter, and as the prospective nominee for the office again, he could safely rest his case with the general public.

Judge Harbeson.

The Vanceburg Sun copies the BULLETIN's editorial concerning Judge Harbeson, with this introductory reference: "While the subject is not of our political faith still he is a friend whom we respect and whom we regard as deserving of some notice from the papers of the district."

The Brooksville Review says: "The above (the BULLETIN editorial) is a just tribute to a most worthy official. Judge Harbeson by education and training was well equipped for the bench when elected to the office of Circuit Judge four years ago, and his experience during these years has fully prepared him for the discharge of the responsible duties of that high office in the most satisfactory manner. He is in the zenith of his manhood and mental vigor, possesses inimitable energy and industry, and above all is a gentleman of the highest character and of impeccable integrity. To say he has committed no errors while upon the bench would be more than human for him, but whatever errors he may have committed have been those of the head and not of the heart."

High Priced Porkers.

SPRINGFIELD, February 20.—At a sale of Poland China hogs, owned by Hart & Minnis, of Edinburg, Ill., held here, forty animals brought \$12,269. One boar, "Look Me Over," was purchased by the Look Me Over Association, of Sanabury, Mo., a syndicate of eight, for \$3,000. This is the highest price any hog has yet sold for, the highest price ever before obtained being \$1,700 for Klever's Model, which was sold at Council's sale at the fair grounds here in December, 1896.

Anderson's Model brought \$1,575, being sold to George W. Null, of Odessa, Mo. This is the highest price ever obtained for a sow.

Oyster Supper Next Tuesday Evening.
Men's Rally To-morrow Afternoon.
State Delegates to Speak.

The men's rally at the local Y. M. C. A. to-morrow afternoon will be a "convention meeting," as the ten delegates who attended the recent State convention at Frankfort will each speak, briefly telling of the meeting and the status of the work throughout the State.

There will be a good musical program, and all men, young and old, are cordially invited. They will find it a very pleasant place to spend an hour in a way that will benefit and help you.

The gymnasium classes that usually meet on Tuesday will instead practice on Monday at 4 p. m. and 7 p. m. respectively, next week, on account of oyster supper being held on Tuesday in the rooms.

The members of the Women's Committee are requested to meet again in the association parlors on Monday afternoon at 3 o'clock.

The Women's Committee have arranged to give an oyster supper in the gymnasium room next Tuesday evening from 5 to 9 o'clock for the benefit of the local association. Oysters will be served, fried, stewed or raw, with saratoga chips, coffee, bread, pickles and catsup for only 25 cents. Ice cream and cake will be extra. There will also be home-made candy and other good things on sale. Let everybody in Maysville attend this supper. You will not only "get your money's worth," as the saying goes, but will aid in a worthy cause that should appeal to the hearts of every one who has the welfare of the young men of the city at heart.

Last Notice to Tax-payers.

By order of the Board of Council, the Chief of Police is instructed to proceed at once to collect the delinquent taxes; and all property on which the city taxes is not paid, will be advertised for sale on the first day of April, according to law.

D. P. ORT, Chief of Police.

The prayer meeting topic at Mill Creek Church for Wednesday evening, March 3rd, is "A Study in Missions," preparatory for the offering on the following Sunday. An interesting and instructive program has been prepared, and we hope to have a full representation at this and also the following Sunday morning meeting. "An offering from every church, a gift from every member," is the watch word. Let us pray that we may abound in this grace also.

FLEMINGSBURG Times-Democrat: "Monday Joseph Walton, of Germantown, bought twenty head of cattle here and told three of his tenants or neighbors to drive them home. They loaded up with old snake medicine and went to the lot and turned out twenty-six head of cattle and started with them. The other six head belonged to different parties, the owner of three of them overtaking and getting back before they got out of town. Two of the others belonged to C. P. Faris and the other to James F. Summers. Mr. Faris pursued them and overtook them near Johnson Monday evening, but as there were three of them and only one of him they 'stood him off,' and went on with the cattle. He returned and got a warrant and Jailer Ryan and again went in pursuit, overtaking them near Mayslick, and recovered the cattle and \$11 for the costs of the case. Whisky is a fine thing, isn't it?"

DESTRUCTIVE FIRE.

The Old Stanton House, Owned By Messrs. Purnell & Crowell, Burned at Midnight--The Loss and Insurance.

The large one-story brick residence belonging to Messrs. James Purnell and Simon N. Crowell, at the southwest corner of Walnut and Front street, Fifth ward, was destroyed by fire at midnight last night.

The building contained eleven rooms and was occupied by Messrs. Purnell and Crowell and the latter's brother, Mr. Mart Crowell.

The occupants had a narrow escape, and had it not been for the timely discovery of the flames by Mr. "Jinks" Stockdale some of the families would probably have perished in the fire. They had to escape by way of the windows, and succeeded in saving but little of their household goods.

The fire started in that portion of the building used as a kitchen, but in what way is not known. It soon got between the ceiling and the roof, and when discovered pretty much the whole upper part of the building was a mass of flames.

The Amazon was the only fire company that could reach the scene, as the Washington and Neptune were cut off by the high water. The Amazons were slow in responding and as a stiff breeze was blowing the fire had gained such headway that it was found impossible to save the building. The walls are about all that was left of the house, and they are cracked and badly damaged.

The loss is placed at \$3,000 to \$3,500. Each of the families had \$500 insurance on their household goods, in companies represented by Mr. W. N. Howe, and there was \$2,200 insurance on the building, \$500 in Mr. W. R. Warder's agency and \$1,700 in Dr. John T. Fleming's agency.

The building was owned for years by the late Judge R. H. Stanton. It is said he got the property in payment of a fee in a big lawsuit in which he represented the owner. It was elegantly finished inside, the original cost of the building it is said being \$10,000.

River News.

The river has been falling very slowly here. The marks at 9:30 this morning showed 55.9-10 feet, the fall so far amounting to only 1.5-10 feet.

The waters are receding rapidly above, Pittsburg reporting only about 12 feet and Charleston 17 feet yesterday at noon.

So far as learned the waves from the heavy wind last evening caused no special damage.

THE BICYCLE INDUSTRY.

Wheels Have Reached a Standard of Design in Appearance, Weight and Shape.

The national shows held by the National Board of Trade of Cycle Manufacturers are a reliable index of the bicycle industry. These held in Chicago and New York, which have just been brought to a close, reflect more than any of their predecessors the economic importance of this business, which has now grown to such vast proportions. Few, even of the most careful observers, appreciate the position it has obtained for itself in the ranks of industrial enterprises. A careful survey of the exhibits at the New York show disclosed many interesting facts.

First, that the bicycle itself has reached that stage in its development where it has assumed a standard of design in appearance, shape, weight, proportion of parts and the principles of steering, propulsion and weight-carrying that seems to have put it beyond the danger of innovation and unripe experimentation. This fact has been brought out by the almost total absence of freaks of construction at the shows. There has usually been a straggling army of these hanging upon the outskirts of the business, and though they have never made any inroads into the ranks of the makers who held to the standard forms of construction, yet their presence has always been heretofore looked upon as exemplifying the possibility of radical changes, and consequently affecting the stability of the trade in the minds of investors.

Another thing that has added to the stability of the business is the unquestioned admission of the bicycle to the list of everyday necessities. Its largest duty is not as a contributor to sport and pastime; it is a factor in the economics of everyday life. Furnishing as it does the most concrete form of individual rapid transit, it has become indispensable to all its devotees, who are found in every walk in life.

The bicycle a few years ago used to be sold to the youth. To-day some of the largest customers are corporations and governments, who buy them for their messengers, inspectors, policemen and lettercarriers. This has contributed to the tone of the trade.

GESSIP OF THE CYCLISTS.

A statistician has worked out the total weekly mileage of all the cyclists in the world at 900,000,000 miles, and dares those who disbelieve it to check his figures.

A novel sight was witnessed in Cleveland, O., recently. A man appeared riding on Superior street dragging a big sled after him upon which was fastened a market basket. Stopping at a grocery store the ingenious cyclist did marketing, filled his basket, remounted his wheel and proceeded homeward.

The inventors seem to be as busy as ever. The number of patents each week seem to increase rather than decrease, as one would expect at this time of the year. Brakes, saddles, repair outfits and stands appear to be most in the minds of those seeking fortunes through the medium of the Patent Office. Once in a while some slight improvement is suggested for the frame or bearings of a bicycle, but the wheel of to-day is apparently so near a state of perfection that improvements are scarce, indeed.

Somebody with a fondness for figures shows the large increase in the bicycle business in the following paragraph: Prior to 1885, there were but six bicycle factories in this country. In that year there were 11,000 machines turned out. Five years later there were seventeen factories with an output of 40,000 wheels. In 1894 the factories increased rapidly, and 125,000 machines were turned out. A year later the production was 600,000 and the number of factories more than 500, none of which turned out less than 1,000 wheels a year. The capital invested in these large factories is a big sum, and the estimate of the output for the present year is not less than 1,000,000 wheels, valued at \$50,000,000.

A SPECIAL from Vanceburg says during a dispute over settlement of some money, amounting to \$5, Wilson Dyer and Thomas Horsley opened fire with pistols on Thomas Stafford and James P. Simer, shooting Stafford in the head and Simer in the thigh. Stafford will die. Dyer and Horsley are at large, with officers in pursuit at last accounts.

DOVER NEWS: "Mr. William Gabby is announced as a candidate for Jailer of Mason County in this issue of the News. Mr. Gabby was raised in the Lewisburg precinct and has numerous friends throughout the county. He is and always has been a No. 1 Democrat, ever ready to work for the success of the party. The voters of Mason County will make no mistake in nominating Mr. Gabby, for if nominated the office of Jailer of Mason County would certainly be filled by a Democrat after next November."

TREATY READ AT CARACAS.

It Is Now Believed That President Crespo Will Gain the Day.

NEW YORK, Feb. 27.—A special to The Herald from Caracas, Venezuela, says: The message of President Crespo on the boundary line treaty negotiated by the United States with England has been read to the Venezuelan congress. The message is in favor of the treaty in all its points and asks congress to give first consideration to the protocol. President Crespo argues that the protocol is of the utmost importance to the country at large and is urgent in his request to congress to give careful consideration to the matter.

Since congress convened on Feb. 20, the treaty has been widely discussed, and though there remains some decided objections to it, principally that of Senator Michelen, who was formerly the Venezuelan minister to England, the stand of President Crespo has won many friends for it. Senator Michelen's recent virulent attack on the United States and his declaration that Secretary Olney had entered into a conspiracy with England against Venezuela have had little effect here.

NOT BY INSTALLMENT.

Nebraska Refuses to Let Ex-Auditor Moore Settle Thus.

LINCOLN, Neb., Feb. 27.—No papers have yet been filed in the case against ex-Auditor Eugene Moore, but Deputy Attorney General Smith is authority for the statement that they have been prepared and are ready to file tomorrow.

The charges are of a criminal character, based on the allegation of embezzlement and kindred offenses. This indicates that the bondsmen of Moore have been unable to raise the \$25,000 he is short and that the state has refused to settle on the installment plan, as proposed by Moore, who offered to repay his shortage at the rate of \$500 per month. There have been no further steps taken in the Bartley case.

Who can Measure
the influence of the Mother—it lasts through all coming ages, and enters the confines of eternity. With what care therefore should the Expectant Mother be guarded and how great the effort to make her life happy.

"Mother's Friend"
makes child-birth easy, assists nature in its sublime effort, leaves the Mother stronger after than before confinement, and robs the hour of its terror. No Expectant Mother can afford to neglect its use.

"A customer whose wife used 'Mother's Friend' says that if she had to go through the ordeal again, and there were but four bottles to be obtained, and the cost was \$100.00 per bottle, she would have them." GEO. LAYTON, Dayton, Ohio.

GREAT FRANCIS MURPHY.

Foremost Apostle of Temperance Endorses Paine's Celery Compound.

Francis Murphy, the widest known temperance advocate in the world, was born sixty years ago in an humble cottage in Ireland. He is the founder of the "blue ribbon" and "iron clad pledge" movements. Mr. Murphy and Mr. Moody have recently been laboring together in some of the large cities. How deeply they have entered into the affections of the country every one knows.

Five thousand people have just signed Mr. Murphy's temperance pledge in Boston.

Mr. Murphy is a great believer in Paine's Celery Compound. For years he has been thoughtfully observing and advising men for their bodily and spiritual welfare. "A sound mind in a sound body" has been the constant theme of this great philanthropist.

Because of its power of strengthening and restoring the nerves and brain Paine's Celery Compound is used to-day in many such families as that of Mr. Murphy where no other remedy would be thought of for a moment.

Mr. Murphy writes to the Boston Globe: "Paine's Celery Compound has been used in my family with good effect. It is a splendid remedy."

The discoverer of this most successful of remedies was no mere theorist. Prof. Edward E. Phelps, M. D., LL. D., of the Dartmouth Medical school, had accumulated the most absolutely convincing evidence of the remarkable virtue of his great discovery, enough to satisfy the most skeptically inclined persons, before he offered Paine's Celery Compound to his fellow practitioners and to the world.

For absolute reliability in routing out obstinate disorders from the system there is nothing that at all resembles or approaches it. Paine's Celery Compound should be taken by everyone who is trying to get rid of nerve or blood diseases or a disordered condition of liver or kidneys.

Such evidences of an unhealthy condition as those constant headaches, melancholy, dyspepsia or constipation rapidly disappear under the cleaning, regulating action of Paine's Celery Compound.

Don't confound Paine's Celery Compound with the ignorant, catch-penny, short-lived remedies—sarsaparilla, nervines and tonics that bear as much resemblance to Paine's Celery Compound as the parasite vines do to the oaks that they live on. Don't take anything less than Paine's Celery Compound.

A GRATIFYING SUCCESS.

The Entertainment at the Opera House Last Night Very Enjoyable Throughout.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida street, San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at J. James Wood's Drug store. Regular size 50c. and \$1.

The sick man knocking at the door of health gets in if he knocks the right way, and stays out if he doesn't. There are thousands of ways of getting sick but only one way to get well. Do whatever you will, if you do not put your digestion in good order, and make your blood rich and pure, you will not get well. Rich, pure blood is the only thing that can bring perfect health. Consumption is a disease of the blood. A large part of all diseases are traceable directly to impurities in the blood, and can be cured by eliminating them with Dr. Pierce's Golden Medical Discovery. The first thing it does is to put the whole digestive system into perfect order. It stimulates the appetite, excites a copious secretion of the digestive fluids and promotes assimilation. It searches out disease germs wherever they may be, kills them and forces them out of the system. The "Golden Medical Discovery" has been used with unvarying success for over thirty years.

No More Hangings in Ohio.

COLUMBUS, O., Feb. 27.—The state board of pardons has recommended the commutation to life imprisonment of the sentence of Levi Martin Miller, the only murderer in the penitentiary annex condemned to be hanged, the others there having received electrocution sentences. If Governor Bushnell acts upon the board's recommendation there probably will be no more hangings in the penitentiary. Miller shot Marshal Shultz of Tiffin and was the cause of the Tiffin riot. The recommendation is upon the ground of insanity.
